Jerome & Marylou Bongiorno

...are Emmy-nominated, award-winning husband and wife filmmakers of Bongiorno Productions, who create cutting-edge fictional, documentary, and museum art films that are widely distributed.

Their *New Work* series of 3D short films is inspired by Paul Strand and Charles Sheeler's avant-garde *Manhatta* (1921) and is in the style of city symphony films and photography of the 20s and 30s. *Newark*, the first in the series on the filmmakers' home city, was commissioned and acquired by the Newark Museum for its Centennial Celebration and exhibited in a solo gallery show in 2009-10. *The Brooklyn Waterfront* was presented at the Museum of the City of New York in 2010.

New Work is screening internationally in prominent museums and symposia.

The Bongiorno's have numerous films in various stages of production and have received grants from major foundations and corporations as well as film fellowships from the NJ State Council on the Arts, the MacDowell Colony, Ledig House, and Wildacres.
